LIVOS PAINT STRIPPER

This new product from Livos is based on renewable resources, making it a safer way to strip old paints and varnishes. To remove paint, apply remover liberally and spray with water to wet it. Leave for a few minutes then remove the softened paint or varnish with a putty knife. If the old paint coating is extremely thick, it may be reapplied if necessary. It's made from natural ingredients and an ingredient disclosure is available from all Livos retailers.

\$34.75 for a 1kg bucket.

18W LED OUTDOOR BULB

This light bulb, great for outdoor spotlights and sensor lights, is an energy efficient alternative to outdoor halogen spotlights. It becomes bright immediately after switching on. Using just 18 watts of power and producing 1500 lumens of natural white light, these globes are a direct replacement for 150-watt halogen globes found in outdoor spotlights and driveway sensor lights. It is rated for outdoor use, has a natural white colour temperature and an E27 Edison screw base. \$49.50
