## Low Gloss Paint

No. 692

- **Mattlack**
- **Laque mate**
- **Laca mate**
- **Lacca Opaca**
- **Mattlack**

### Color for wood

**CANTO Low Gloss Paint** is a good opacity paint with a high yield and a big coverage strength. It can be used for most wooden surfaces in the interior. Exceptions are all walking ways, e.g. floors and others. CANTO built an elastic, abrasion- and scratch resistant surface, which is limited in its chemical resistance and in complying with German Industrial Norm (DIN) 53 160, fast to perspiration and saliva and with DIN EN 71 Part 3 certified as suitable for toys.

CANTO Low Gloss Paint is applied with a brush or with spraying on dry surfaces. The room air temperature should not be lower than 15°C. Depending on the temperature, the moisture content and the thickness of the coatings, CANTO Low Gloss Paint can be re-coated after 6 hours. Completely hardened after about 1 week. CANTO Low Gloss Paint is available in eleven different colors of which samples are printed on the back.

Further information as well as the safety advises you will find on our Technical Data Sheets (TDS) and on our labels and packaging.

All LIVOS products have been tested intensively to guarantee advantageous working properties. All ingredients are disclosed in the context of a controlled full declaration. The sourcing of raw material as well as the production is carried out according to social and ecological guidelines. Besides, LIVOS neutral products undergo external scrutiny by the German Institute for Quality and Environment Control (IQUH).
