

Technical Data Sheet

FUNGIVER Mould and Mildew Remover No. 1780

One-time treatment against mould and mildew and their spores

cova remediation systems

Range of application	For all interior surfaces like wood, walls, wall paper, tiles, OSB - and other breathable wooden composite boards. Also suitable for upholstery, carpets, curtains and other fixtures.
Technical qualities	Destroys mould and their spores, as well as bacteria. Acts mould-inhibiting and prevents fast new infestation. Readily biodegradable and non-combustible. Good skin compatibility (Dermatest 2007), safe, quick and easy application. Economic, one application is sufficient.
Full declaration	Water, hydrogenperoxide, stabilizing fruit acids. All ingredients are used in pharmaceutical quality.
Application method	One application on the affected areas with a suitable spraying device.
Dilution	Delivered ready to use.
Coverage	1 l Mould and Mildew Remover No. 1780 is sufficient for appr. 10 m ² .
Color	Colorless.
Reaction time	Minimum 60 minutes.
Specific gravity	Appr. 1,02 g/cm ³
Cleaning	Clean equipment immediately after use with water.
Safety information	Biocidal agent: Hydrogenperoxide 49,9 g/l. 89/542/EWG: Contains Preservatives, <5% bleaching agents on basis of oxygen. S 2 Keep out of the reach of children. S 46 If swallowed, seek medical advice immediately and show this container or label. Use Mould and Mildew Remover safely. Always read the label and product information before use. baua: Reg.-Nr. N-37780
Disposal	According to locally regulated laws. European waste code: 070699.
Container sizes	0,5 lt; 2,5 lt; 10 lt.
Storage	Cool, dry, frost-free and close lid tightly after use. Shelf life: 36 month. Protect from direct sunlight. Always store in an upright position.

How to use

FUNGIVER Mould and Mildew Remover No. 1780

Application	Apply once on the affected areas with a suitable spraying device (without base metals such as brass, copper etc.). Leave on for at least 60 minutes. Remove deactivated mould or rinse with water. To avoid fast new infestation it is recommendable to spray again after it has dried.
Safety advice	Mould can be harmful, therefore the following precautions are absolutely necessary: Wear dust mask (e.g. P3) against mould and their spores in the air. Protective gloves to avoid skin contact. Tight closing clothing.
Additional information	Don't store in metal containers. With sensitive materials a test application on an inconspicuous place is recommendable in order to avoid e.g. unwanted color reactions on textiles.

These directions are the result of long years of research and practical testing. They are backed by our most current expert information. New findings may invalidate this information. This data sheet is meant to serve as information and instruction. No legal liability should be interpreted from it. In case of doubt, please contact the retailer, wholesaler, or manufacturer.
