

Technical Data Sheet

FUNGIVER Mould and Mildew Remover No. 1780

A one-time treatment against mould and mildew and their spores

cova remediation systems

- Suitable for** All interior surfaces like wood, masonry, wallpaper, tiles, OSB - and other breathable wooden composite boards. Also suitable for upholstery, carpets, curtains and other fixtures.
- Technical qualities** Destroys mould and their spores, as well as bacteria. Readily biodegradable and non-combustible. Good skin compatibility (Dermatest 2009), safe, quick and easy application. Economical, one application is sufficient.
- Full declaration** Water, hydrogenperoxide, stabilizing fruit acids (benzoic acid, sorbic acid). All ingredients are used in pharmaceutical quality.
- Application method** One application on the affected areas with a suitable spraying device.
- Dilution** Ready to use. Do not dilute
- Coverage** 1 lt Mould and Mildew Remover No. 1780 is sufficient for approx 8 - 12 m²
- Color** Colorless.
- Reaction time** Minimum 60 minutes.
- Specific gravity** Appr. 1.02 g/cm³
- Cleaning** Clean equipment immediately after use with water.
- Safety information** Biocidal agent: Hydrogenperoxide 49.9 g/l.
89/542/EWG: Contains Preservatives, <5% bleaching agents on basis of oxygen.
S 2 Keep out of the reach of children.
S 46 If swallowed, seek medical advice immediately and show the container or label.
Use Mould and Mildew Remover safely. Always read the label and product information before use.
baua: Reg.-Nr. N-37780
- Disposal** According to locally regulated laws. European waste code: 070699.
- Container sizes** 0,5 lt
- Storage** Cool, dry, frost-free and close lid tightly after use. Shelf life: 36 months. Protect from direct sunlight. Always store in an upright position.

Application

Apply once on the affected areas with a suitable spraying device (without base metals such as brass or copper etc.). Leave on for at least 60 minutes. Remove deactivated mould or rinse with water. To avoid fast new infestation it is recommendable to spray again after it has dried.

Safety advice

Do not inhale aerosol.

Mould can be harmful, therefore the following precautions are absolutely necessary (also on smaller areas):

Wear dust mask (e.g. P3) to protect against mould and their spores in the air.

Protective gloves to avoid skin contact.

Tight clothing.

Additional information

Do not store in metal containers.

With sensitive materials, a test application on an inconspicuous place is recommended in order to avoid e.g. unwanted color reactions on textiles.

In case of large-scale mould infestation and/or suspicion of hidden mould, please contact an expert e.g. building biologist or specialised company for mould remediation.

These directions are the result of long years of research and practical testing. They are backed by our most current expert information. New findings may invalidate this information. This data sheet is meant to serve as information and instruction.

No legal liability should be interpreted from it. In case of doubt, please contact the retailer, wholesaler, or manufacturer.
