Loving Local Expos

Thanks to our wonderful client's wisdom we attended our first LOCH Wood working Expo. Set in the stunning surroundings of the South Gippsland even the extreme heat didn't dampen our excitement. Meeting so many who are passionate about their craft and the products they use made for a great weekend. Topped off with some special clients like Chris Drysdale who won an award for his beautiful pieces (which are treated with Livos)

So if you know of a local expo or event where you think visitors would like to learn about the choice Livos offers we would love to hear from you.

Handmade Outdoor Seating

These unique seats which have spotted gum and ironbark timber on a metal frame which then have been treated with the Livos Alis in light teak. You can clearly see from the difference between the photos how the stain has deepened the tones of the wood but still retained the natural markings and texture we love in timber. Two of these around an open fire is heaven!!

Amazing Clients Piece

This beautiful and unique piece is a favourite of mine from the craftsman Don Kelman. The timber used is acacia puce, treated with Kunos to intensify the strong and amazing colors from this very rare timber. Many more pieces of his work and fellow craftsmen will be on display at the Aust woodturning exhibition in Nunawading during June.

Better Homes and Gardens

Did you see the Hemp house on Channel 7's Better Homes and Gardens? If you did, did you also know the project, based in Northcote featured Livos oils on their concrete? It contains several lots of sustainable design principles such as passive solar design, high thermal mass, high insulation and achieves an 8-star energy rating. Amongst other interesting features, they used rammed earth and hemp to build the walls.

For a preview of the project, check out <http://www.steffenwelsch.com.au/built-work/northcote-hemp-houses.html> for more details.

Old Unused Computers?

It's Time To Let Go !

Register today for your free E-Waste collection and recycling service

Your responsible solution to unwanted IT equipment!

ECOACTIV Product Recovery Programs help to ensure that unwanted and redundant IT equipment, telephony, mobiles and accessories, are safely recycled. Some older IT products can contain hazardous substances, so it's important to keep these items out of landfill.

Renovating Magazine

Livos had its first feature in the Renovating Magazine issue 92 jan-feb-march Victoria edition 2014 on page page 20.

This great magazine is available free from a large range of stores where renovators like to visit, from kitchens to bathroom suppliers to the local hardware guy. Keep a look out for it next time you are out and about as it has heaps of fabulous ideas and new products filling the pages.

Recycled Interiors
February 5, 2014

Do you want to know about real eco friendly floor sealer, oils, paints and stains for your next renovation or building project? Look no further than Livos Australia A great interview with all the lowdown on these products on the blog today 😊

RECYCLEDINTERIORS.ORG

Recycled Interiors

Our Livos expert Angela had the great pleasure of being interviewed by Helen Edwards a well known Blogger and Consultant for Recycled Interiors.

Fully aware of green washing she asked many of the deep cutting and up front questions that shows how well ahead Livos and our products are.

The Owner Builder

The Beautiful Tigger's house is featured in Issue 181, 2014 on page 64.

When a horse called Tigger needs more room, a house is built!

Their internal timber, including western red cedar windows and glazed doors, cypress skirtings and architraves, and bamboo bench tops are finished with the Livos foodsafe oil. To read the full story click
