Open holiday hours 9-3pm

January

Friday 1st New Years Day- Closed

Saturday 2nd- Closed

Monday 4th- Open: Return to normal hours

Care and Maintenance

As with any product, not only is the preparation and application important however the maintenance plays a huge role in keeping the various surfaces in their optimal condition.

The number of calls whereby clients do not have any idea of maintenance is increasing and as such how to fix e.g. floors that have been washed too early or on one occasion, steam mopped.

As all Care and Maintenance sheets are on the website, these are easily downloadable and could be given to the clients when they purchase the particular oils for floors, furniture (or furniture pieces), decks etc. We strongly recommend the Trena PH neutral cleaner as it is mild and effective cleaner without breaking down the oils wax layer formed by the cured Livos oils and is suitable for all treated surfaces types.
