Jobs on the go!

We've had some very exciting news that the Livos products are being used at two very exciting locations. We're looking forward to seeing the completed [projects](#) at the Café in the Melbourne Museum and all four level of the Matheson Library at [Monash University](#). Watch this space, hopefully we can get our hands on some photos.

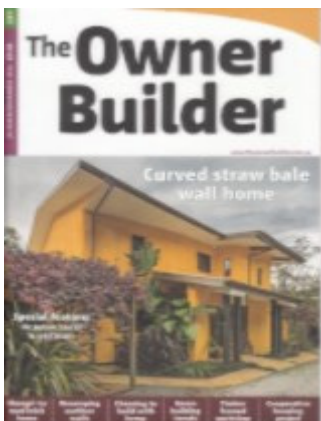

All products now come in sample pots.

All products now come in the sample pot size, 0.05ml, including all of our cleaners Latis, Trena and Glanos.

Handy tip: Dilute 10ml of the [Trena PH neutral cleaner](#): 1Lt of water in a spray bottle and its ready to use on benches, floors or any other surfaces.

Note: While some [dish washing](#) detergents are labelled as 'green' or 'eco friendly' ultimately, they are there to break down fats and oils and will eventually break down your oiled surfaces.

The Owner Builder Magazine

Follow Kirstie Wulf in her personal investigations of natural building materials and methods when the opportunity to build herself arose. Nice to see the [Livos Ardvos](#) being used on her build. [Click here](#) for the full article.

Product Feature in The Australian Woodworker

Product feature in The Australian woodworker - Menos Natural Undercoat featured in this month's issue of the The Australian woodworker. [Click here](#) for the full article.

New Website

Just a reminder, we have updated our website to make it more user and mobile friendly! All the information you need is now a click away, including product information/advice and application as well as product Material Safety and Technical data sheets. So please visit us at www.livos.com.au for any information you may need.

Can the paint I use really make a difference to my health and the environment?

In our newest blog we discuss how your paint choice can actually make a substantial difference to your health and the health of the environment. [Click here](#) to continue reading and for the full article.

Our New Website

Just a reminder, we have updated our website to make it more user and mobile friendly! There is now a *product advisor page* that will aid you in finding the most suitable product for your particular project. Additionally, application methods and videos, as well as product Material Safety and Technical data sheets are all now a click away. So please visit us at www.livos.com.au for any information you may need.
