CERTIFICATE

Safety Certificate KUNOS – Natural Oil Sealer No. 243

KUNOS – Natural Oil Sealer No. 243 is made of linseed oil - stand oil - natural resin ester, orange oil, Isoaliphates, silicic acid, micronized wax and drying agents free of lead.

The components are biodegradable and/or recyclable.

Isoaliphates and orange oil are used as solvents. Isoaliphates have no sensitizing effects. They are therefore used in the production of pharmaceutical products and cosmetics, and for the cleaning of food. Orange oil is only used in food grade quality.

KUNOS has been approved for DIN EN 71, Part 3, (Migration of specific elements) and is therefore certified as suitable for toys.

KUNOS is certified according to DIN 53160 for color fastness when exposed to perspiration and saliva.

KUNOS is tested according to DIN 68 861, Part 1 for application on furniture surfaces.

KUNOS is recognised as safe for applying on articles coming in contact with food according to the German regulations (§ 3 Abs. 1 des Lebensmittel- und Bedarfsgegenständegesetz vom 15.08.1974).

KUNOS is neither hazardous to the human health nor a risk to the environment according to the German regulations for chemicals (§ 3a Abs. 1, Nr. 6-15 und § 3 Abs. 2 des Chemikaliengesetz).
